

Dear Parents of Classes Pre-Primary

This is to inform you that as per new guidelines the Ministry of Education, one online class of 45 minutes can be held for tiny tots of Pre-Nursery, Nursery and Kindergarten.

Since the students of these classes have a very short span of concentration therefore teaching them for 45 minutes regularly at a stretch will not only make the session boring and monotonous but will also become a great burdening affair.

Thus to make this online session engaging, interesting and fruitful, we will include recitation, repetition drills following instructions and commands etc. alongwith covering the formal areas of reading, writing and arithmetic.

For your assistance, we are sending you a video which will help you hassle-free joining us online.
